WHO IS NIJOLCREATIVE?

NijolCreative Photography started its journey in 2011. Abu Sufian Nilove is the founder and CEO of this agency. He had a camera with lens and flash when he started NijolCreative Photography and the rest is history.

NijolCreative Photography is here with the excellent crafts and alternatives such as Videography, Digital Branding, and Film Changing. Though we have grown to represent creative photography especially Wedding, Corporate, Product & Commercial photography oriented work. NijolCreative Photography is ready to capture your photographs of every moment and small happenings in your life and put together the photos chronologically into albums. Our job is creating and capturing photographs and albums that tell the stories of moments and events in the lives of our clients.

We are delighted to serve that allow us to explore our creativity while saving significant moments in our client's lives. It's a remarkable and enormous pleasure to observe and save the love, emotion, happiness and rising relationships of our clients. We are grateful to have the opportunity to capture moments of our clients.

We are ready to deliver long term assistance and support to our clients and help to build their archives of moments and events for perpetuity. We offer support and development for our clients' dreams and desire, and for any projects that extend the discussion of photography in general. We get satisfied when we see your exclusive time relies upon on our framework which never let your moments go away. We catch not only your exclusive moments but also end to end personalization with the frame of a perfect pixel which will let you satisfied with our service.

We are looking forward to developing and be a part of photographic education. We are eyeing to increase skilled and qualified photographers in our country so that we could remove unemployment. Thus, we want to help people and the economy of our country.

As the leading and significant photography agency of Bangladesh, costs our customers' specifications are our important issue. But what keeps us in the significant position is not just following deals but to see your needs as our ambitions. And when it comes to fulfilling demand, we keep nothing uncontrolled. Only then we supply with the best impressive service that can ever be designed. And you are welcomed to be a part of our journey.

OUR CLIENT

GIGABYTE™

OUR TEAM

Teamwork defines our core ideology. Being expert in different fields, we put our best in every project together and conjure beauty from every difficulty that comes forth.

About Abu Sufian Nilove

I am Abu Sufian Nilove, Founder and CEO of NijolCreative Photography. I started my professional photography career in 2006. I have been interested in and passionate about graphics and photography since childhood. I used to draw or sketch on book covers and homework copies. And these were the signs of my creativity and passion, which later turned toward photography.

To make my passion a reality, I started my photography career in 2006 with a photo studio. I learned the basics of digital photography from one of my friends and later enhanced my photographic skills and craft with the help of the internet.

After having four years of experience with that studio photography, I further expanded my techniques by learning graphic design. Then I started freelancing as a graphic designer and was quite successful. From 2010 to 2012, I did a lot of outsourcing work based on graphics design. Although I still retain my passion by doing regular clipping path and image editing work for some of my international clients.

About Abu Sufian Nilove

In my opinion, the process of learning digital photography can basically be started online; And I am the biggest example of this. However, after that, I did a 'Diploma in Photography course from 'PRISM.'

Now I am successfully running the country's top digital photography company NijolCreative Photography. Our Nijol Creative Photography albums actually create bits and pieces of people's life stories and also tell a bit about who I am.

I achieved the award of the best photographic entrepreneur in 2015. Along with my photography career, I keep myself involved in various photographic and public figure actions. Besides these, I work as a social worker, e-commerce developer, public speaker, and organizer.

I have always tried to designate my photography as honest, sincere, and intimate. My professional age in this digital photography is more than ten years. Over time, I have been developing my aesthetic sensibilities and technical skills. I put my heart and soul into my work and it shows in my photographs.
