01

2015

We started bZm Graphics with only 4 photo Editors and a very big dream. The starting was rough but we never lost hope and that bought us here today.

02

2020

It was not a great year for anyone. Everyone suffered. So did we. We struggled with everything but the good news is we survived and learned from that nightmare.

03

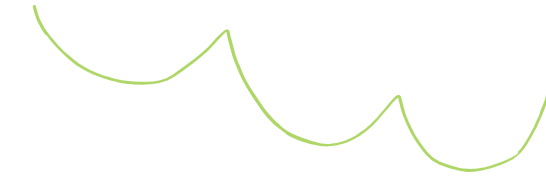

2025

We are currently the 3rd biggest post-production company in our country. By 2025 we see our self as the number one.
