

Noram Technologies Bangladesh Ltd.

Company Profile

"Noram Technologies Bangladesh Ltd. ("Noram Tech" in short) is an IT Enabled Services (ITES) and Business Process Outsourcing (BPO) company headquartered in Dhaka, Bangladesh. Founded with a vision to leverage cutting-edge technology and innovative solutions, Noram Tech specializes in delivering high-quality, cost-effective IT enabled services across a diverse range of industries mainly for the clients in the United States of America. The company's offerings include customer support, data entry, data analysis, IT support, and specialized business processes outsourcing services etc., all designed to enhance operational efficiency and drive growth for our esteemed clients.

With a commitment to excellence, Noram Tech boasts a team of skilled professionals who are adept at managing complex projects and providing tailored IT solutions. The company's state-of-the-art infrastructure and adherence to international standards ensure reliable and secure service delivery. By integrating advanced technologies and automation, Noram Tech not only streamlines business operations but also enhances the overall customer experience.

Noram Tech's strategic location in Bangladesh positions it advantageously within the global BPO landscape, offering competitive pricing and access to a large, skilled workforce. The company prides itself on building long-term partnerships with clients by delivering exceptional results and fostering a culture of continuous improvement. As a forward-thinking ITES and BPO provider, Noram Technologies Bangladesh Ltd is dedicated to driving innovation and success for businesses."
