Introduction

ICT is the core of any digital initiative. ICT enabled the innovation in many industries and services to make an increasingly important contribution to advanced economies' economic growth. ICT covers the vast area of Information Technology, Communication Technology, and Telecommunication Technology. ICT is also a combination of physical backbone and intellect. Computer systems, network machinery, software, wired/wireless connectivity systems, broadcast hardware, and many other hardware/ accessories are the physical backbone. The trained people behind the backbone are the intellect. The impact of global hype of the ICT sector is clearly visible in Bangladesh as well; transforming Digital Bangladesh is an Idea that includes IT use for management, administration, and governance to ensure transparency, accountability, and answerability at all levels of society and state.

ARN TECH has started its IT business in 2014 and implemented various types of website design & development, web application development, web UI/UX software to its local & foreign clients, and world-class customer service. ARN TECH has already set up its foreign office in Kuala Lumpur in Malaysia to extend its IT business in the international arena.

About Us

ARN TECH is an established name in the market of professionalism. It has been formed by a group of professionals having vivid experience and wide exposure to Information Technology. We focus exclusively on high quality and cost-effective web design(UI/UX), web development, software development, SaaS, SEO service, website speed optimization, and implementation services. ARN TECH is currently doing business in Government, Non-Government sectors, Banks, Insurance companies, Industrial sector, Large Corporate, Telecom, and the Media Sector.

ARN TECH is considered as one of the fastest-growing and leading ICT web development and web application providers in trending high range visitor perform, Google ranking analysis, different mobility solutions for telecom operators, and various CRM and operational backbone software for Financial Institutions.

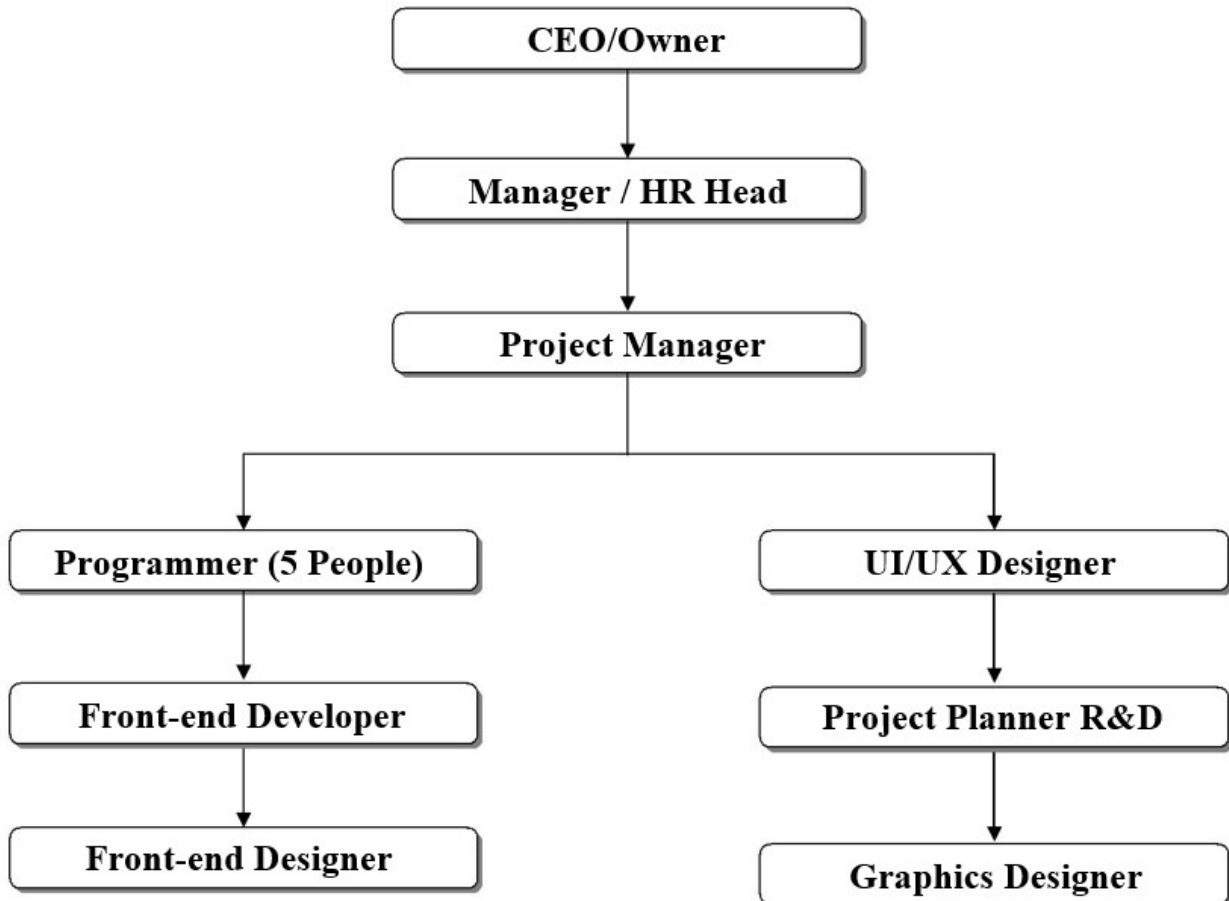

We believe in hiring young professionals with proper qualifications for getting the job done. People involved here are well qualified in their field. It is a company where professionals from both technical and functional fields work together with the objective of providing appropriate business solutions. It realizes the importance of functional knowledge and its impact on developing business solutions. We are advancing at a tremendous pace and with the involvement of skilled and experienced people working in the organization.

We want to establish itself as the best choice in Computing and Information Technology Services, Consultancy, and Development by offering the full spectrum of service.

Organogram of the Company

The main Strength of ARN TECH lies in the mix of professionals, specialized, and highly focused operations. Increasing customer awareness is the strength where it excels over its competitors.

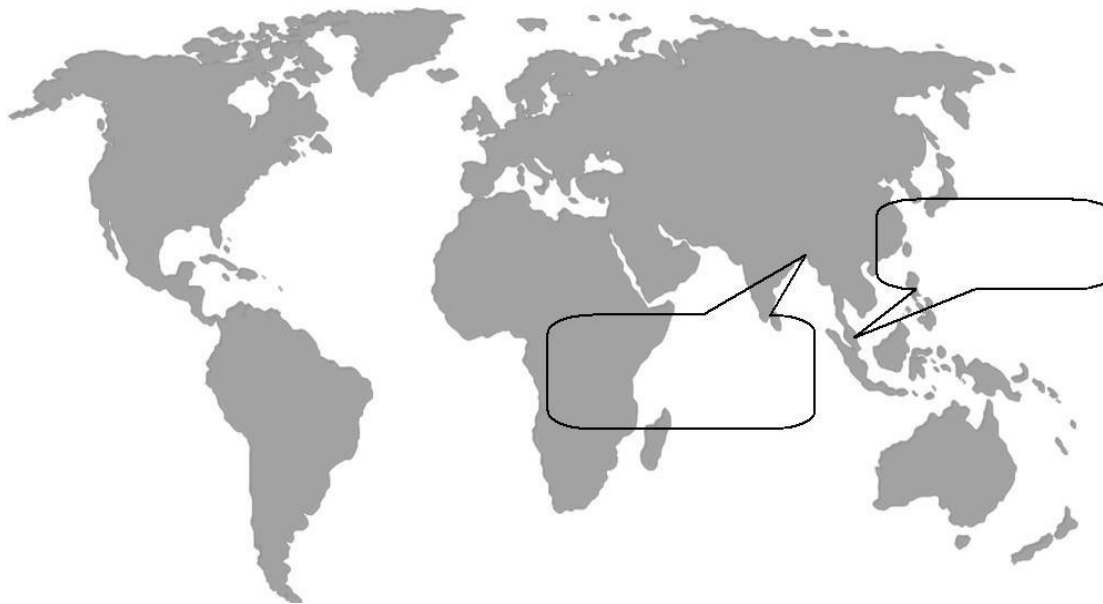

It can place itself as a combination of Technology and Finance skills - a potent capsule mixing vital technological insights with profound business and functional ingenuity. Our strength lies in our ability to blend current management practice and IT expertise into cost-effective Computer Aided Management Solutions, Products, and Services. We understand the need for skill transfer to client personnel. We have experience with rapid application development, traditional Objective Orientated (OO) methodologies. The structure of our employees is as follows:

Human Resources

Total Number of Staffs	:	25
Marketing & Sales	:	3
Project Management	:	2
Sr. Software Engineer	:	3
Business Development Executive	:	1
Software Engineer	:	2
Web Hosting Support	:	2
WordPress Developer	:	5
Front-end Web Designer	:	2
UI / UX Designer	:	4
Others	:	1

Operations Abroad

ARN TECH began its business operations as outsourcing solutions providing company in 2014. Our success and drive in the IT sector soon led us to establish a concern in Malaysia ARN HOST SDN. BHD. is a wholly-owned subsidiary company of ARN TECH in Bangladesh. In addition to being the holding company, ARN TECH's offshore development facilities in Bangladesh are utilized to develop a software solution for ARN TECH Malaysia, while ARN TECH Malaysia being the product marketing, delivery, implementation, and post live support platform. With the involvement of skilled and experienced people working in the organization, the companies are jointly involved in product marketing, delivery, implementation, post live support platform, various systems, and solutions to different economic sectors. ARN TECH has a fully equipped facility for sourcing software and web application from China, Korea, India, Thailand, and the USA. We have recently shown interest in setting up a fully modern sourcing office in China, Korea, and the USA.

- Work with renowned brands
- Multilevel and Industrial level camera solution
- Wholesale and export oriented business plan and facility

6. ENTERPRISE MARKET

- Enterprise Resource Planning (ERP)
- Customer Relationship Management (CRM)
- VAT & Production Management

Company Mission & Vision

Our Vault

Integrity - Honesty in how we deal with our clients, each other, and with the world.

Candor - Be open and upfront in all our conversations. Keep clients updated on the real situation. Deal with situations early; avoid last-minute surprises.

Service - Seek to empower and enable our clients. Consider ourselves successful not when we deliver our client's final product, but when the product is launched and meets success.

Kindness - Go the extra mile. Speak the truth with grace. Deliver more than is expected or promised.

Competence - Benchmark with the best in the business. Try new and better things. Never rest on laurels. Move out of comfort zones. Keep suggesting new things. Seek to know more.

Growth - Success is a journey, not a destination. Seek to multiply/increase what we have - wealth, skills, influence, and our client's business.

Mission

Our mission is to help our clients meet the complex needs of business growth with state-of-the-art Software, Hardware, and web solutions with technological advancements and to spread out world-class IT education in Bangladesh as well as abroad by innovating and continuously improving upon the discipline of IT through sophisticated training with an advanced method, we want to be the most meaningful name in the IT industry by proving our specialty in the core sector of IT. Technological excellence is our main tool in creating a competitive advantage and making us the partner of choice for our clients.

Vision

- To design, develop, and deploy powerful software and websites that enable our customers to automate their business processes and expand.
- To supply and maintain the most appropriate and cost-efficient technology solutions without compromising performance or reliability.
- To ensure the security of the business by providing a smart and technical web-based solution.
- We want to be the pioneer in the IT business.

Forwarded Vision

Our forward vision is to strive to become an entity in technology-based corporate solutions, capable of demanding an unconditional response from the targeted niche. We also believe that

for our scope of improvisation – the sky is the limit, and we are never satisfied with our level of achievements. We are growing and would always like to remain on the growing streak.

ARN TECH's main strength lies in the mix of professionals, specialized, and highly focused operation. Increasing customer awareness is the strength where it excels over its competitors. Our strength lies in our ability to blend current management practice and IT expertise into cost-effective Computer-Aided Management Solutions, Products, and Services. ARN TECH understands the need for skill transfer to client personnel. Our offers cover the following major areas:

A. Software Development

Besides the hardware and network solution, with design and development expertise in diverse platforms, best-of-breed tools and techniques, combined with industry best practices, ARN TECH offers scalable end-to-end application development and management solutions from requirement analysis to deployment and rollout. We are developing software related to financial institutions, mobility solutions, garments- production management, commercial jobs, buying, accounting software for trading, manufacturing houses, and companies. ARN TECH's services span the following application life-cycle stage:

- **APPLICATION MAINTENANCE:**

Changing or enhancing software to meet changing or increasing business demands in the post rollout phase of an application

- **APPLICATION SUPPORT:**

Providing first, second, third line support and on-call support. On-call support further includes Gold (24x7), Silver, and Bronze support.

- **APPLICATION INTEGRATION/MIGRATION/TRANSFORMATION:**

Replacing, migrating, and integrating legacy or bespoke systems with COTS products.

- **APPLICATION MANAGEMENT:**

The application management layer cuts across all software engineering activities listed above. ARN TECH takes complete ownership of the outsourced suite of applications per the agreed scope and manages the support. This typically involves transition management, project management, proactive risk, and scope change management, quality management, SLA management, etc.

B. Outsourcing

- **HIRING A DEDICATED TEAM**

Any customer can hire a team of programmers as their requirement from ARN TECH pool of resources. The general rate of the development is as follow:

C#.Net/ Asp.net/PHP Development	USD 35/ Hour
Graphics Design and Static Web Design	USD 25/ Hour
Business Analysis	USD 40/ Hour
System Analysis	USD 40/ Hour
Implementation Support	USD 25/ Hour
Other works	USD 30/ Hour

Payment mode may be monthly or quarterly based on the volume of the project. For any enquiry, you are requested to mail at info@arntechbd.com

- **FIXED PRICED PROJECT**

For any outsourcing project (direct order from Client or from any partner), ARN TECH goes

For detail business analysis and send an initial understanding (system study report/ business analysis report) document for client’s verification. After getting confirmation from client,

ARN TECH goes for costing based on Total man-hour needed for the whole project (if needed including implementation and after deployment support). ARN TECH guarantees total satisfaction from client even if the clients' requirements are modified and amended during the analysis phase and finally offers up to 50 man-hour (for software and dynamic web solution development) customization opportunity even after the delivery of the project. This software and web development project model always ensure reasonable cost, on-time delivery and also perfect after sales service support as agreed in the documents.

Generally payment terms are 50% in advance (or may be after approval of the first design and initial layout/ prototype delivery) and rest 50% after successful delivery and implementation of the project. For long term project, it may be mutually negotiated by both the parties.

- **READY SOFTWARE PRICING**

For ready software pricing, ARN TECH follows its standard set price and also offers Season's promotional discount option sometimes. For any inquiry, you are requested to mail at info@arntechbd.com.

C. Solution Integration

Growth in the Solution Integration (SI) services market is fueled by the need for seamless business processes across an organization's complete value chain of customers, partners, suppliers, and employees. ARN TECH's SI services enable clients to identify, develop, and implement the best-fit solutions which are equipped to meet their changing business requirements. ARN TECH provides total project management, right from architecture design, integration, system, and interface development to migration backed by world-class methodologies, well-defined solution frameworks, and extensive integration experience with tier-1 service providers.

D. Managed Services

ARN TECH has the expertise and experience to smoothly manage an enabling infrastructure and applications and run outsourced operations for large telecom operators. ARN TECH's Managed Services offerings cover the entire array of IT outsourcing services, including networks, IT infrastructure, applications, and business processes.

E. ICT Consultancy

We consult for the high-end technology implementing at clients site or implementation of new technology according to the client's requirement or upgrading, enhancing the existing facilities in the clients end with the new technology integrating with the existing one. ARN TECH offers a full range of consulting services to help analyze your business requirements for effective implementation of solutions. Our consulting services cover:

- Strategy planning
- Assessment
- Procurement
- Re-engineering solutions
- Planning, audits, best practices, etc.

F. Website Development

We are go-getting hard to fulfill our customers' needs with Innovative and optimal solutions in time. We have the capabilities to understand corporate strategies, objectives and to analyze, design, build and deploy strategic software solutions with the latest And the newest technologies to meet the challenge of the 21st century.

Software development services supply the keystone to our technical Portfolio. Our team of experienced engineers develops innovative client-server, Desktop and web based software solutions for organizations of all sizes. We can create custom-built software applications for your organization

That enables streamline efficiency, increase productivity, and work smarter. Our comprehensive website development services encompass all aspects of the technical and creative process necessary to develop A successful website. The websites we build are supplied with full content management facilities that allow you to your own website

Without the need for advanced technical knowledge.

As "Quality of the product should market itself" is the motive of Micro Mac. We emphasize the Testing and Quality Assurance service for the software Development projects. We follow a standard process for the Testing phase. Our Software Testing Group offers reliable, well-documented system Testing services for each and every application.

 Jasper Report

Web Application Server

IIS, Apache

G. IT Education

Today's world is all about digital communication. MMTV is one of the leading companies dealing with professional courses that will help you accelerate your knowledge base, increase your IT skills, and be a professional. Some of our major training areas are as follows:

- CISCO Certified Network Associate (CCNA)
- Linux (RHCT, RHCE)
- Database (Oracle, SQL Server, MySQL, Sybase)
- Professional Crystal Report
- Visual Studio .Net
- Website Design & Development
- Networking
- Industrial Training / Polytechnic Attachment Program

Corporate Clients for Industrial Training / Polytechnic Attachment Program

- Faridpur Polytechnic Institute
- Khulna Polytechnic Institute
- Patuakhali Polytechnic Institute
- Brahmanbaria Polytechnic Institute

Our Expertise

The development team of ARN TECH is equipped with proper human resources specialized in different system development tasks. The key areas are;

A. SYSTEM ANALYSIS & DESIGN

System analysis and design team combines both functional and technical analysts. We believe in developing a proper system in which functional analysis is equally important as technical analysis. Our system analysis and design team specializes in software like Microsoft Visio, Rational Rose, and Microsoft Visual Modeler.

B. SOURCE CODE REPOSITORY AND ADMINISTRATION

At ARN TECH, we use Visual Source Safe as our source code control software for source code version control and multiple programmer interaction management.

C. DATABASE MANAGEMENT

We have database expertise ranging from ISAM or flat database systems like Microsoft Access, Visual FoxPro to robust commercial database engines like Oracle and Microsoft SQL. We also have specialized experience and expertise in MySQL database server for web-database connectivity and cross-platform data management.

D. WEB DEVELOPMENT AND DESIGN

Our web developers and designers are skilled in development with Microsoft Front Page, Macromedia Fireworks, and Dream Weaver for website design.

E. PROGRAMMING

Our young and talented programmers have a wide range of experience in developing systems.

Our programming skill involves:

PROGRAMMING LANGUAGES:	MULTIMEDIA DEVELOPMENT:
VB, Visual C++, Java, VB for Application (VBA) and Microsoft .Net Platform.	Flash and Flash Script.
WEB PROGRAMMING LANGUAGES:	WEB SERVERS, Databases/DB TOOLS:
PHP, Perl/CGI, Active Server Pages (ASP)	Microsoft IIS and Apache, Oracle, MS SQL Server
SCRIPTING LANGUAGES:	OPERATING SYSTEMS:
Java Script, VB Scripts	Microsoft Platform and Linux/Unix

F. Professional Training:

- MS Office package
- Graphic design (Adobe suits)
- Databases/DB TOOLS: (Oracle, MS SQL Server, MS Access, MySQL, FoxPro, JDBC, ODBC, OLE DB, PHP, Crystal Reports, Windward Reports)

- **PROGRAMMING LANGUAGES:**

C/C++, Visual Basic, Visual C++, Java, Java Server Pages, JavaScript, Visual Basic Scripting Edition (VBScript), Java, Active Server Pages (ASP), JavaBeans, SH (KSH, BASH), Python

- **.NET TECHNOLOGIES::**

NET Framework, C#, Microsoft Visual Basic, .NET, ASP.NET, MVC

- **OPEN SOURCE TOOLS:**

Linux, UNIX, MySQL, PHP, Java, Java Script, etc.

- **PROGRAMMING STANDARDS:**

COM/DCOM/COM+, J2EE, J2ME, ActiveX, Cobra, RPC.

- **NETWORKS/WEB:**

Perl, CGI Script, HTML/DHTML, Internet Information Server, Apache, Java WebServer, XML, WindowsNT, DOM/SAX, WAP.

Completed Software Projects

Name	Description
1. Management System	
1.1 Agency Management System	An integrated system for Service & Billing, with integrated Account & Payroll of Travel Agency Business
1.2 Beauty Parlor Management System	For maintaining Appointment, Service, Transactions among Clients and Beauty parlor authority with integrated Accounts, Purchase, Sales and Store Management
1.3 Cable Operators Business Management System	For maintaining the transaction of Clients monthly Bill with integrated Accounts of a Cable TV business.
1.4 Cold Storage Management System	Basically for all types of transaction in a fishing type of Cold storage. It is an integrated system of Account Inventory & Payroll
1.5 Computer Shop Managing System	For maintaining the transaction of account & Store of a Computer Sales & Servicing Shop.
1.6 Co-Operative Bank Management System (General and Islamic)	For transaction of clients in a cooperative society with integrated store and Account
1.7 Digital Business Managing System	For maintaining the integrated transaction of Account, Store and Payroll in any Type of Trading and Manufacturing Concern.

1.8 Doctors Chamber Manager	An integrated system of Patients Prescription and patient history Tracking for Allopathic Doctors Chamber
1.9 Garments Management System	For maintaining the transaction of account & Store of a Garments Manufacturing & Exporting Company from Order from buyer to Shipment with cost analysis.
1.10 Hajj Travel Management	An integrated system for Service & Billing, with integrated Account & Payroll of Hajj Service Business
1.11 Homeopath Chamber Management System	An integrated system of Patients Auto Prescription based on symptoms and patient history with integrated partial Account for Homeopath Doctors Chamber
1.12 Hospital Management System	All transaction between Hospital & Patient from Reception & admission to discharge with integrated Laboratory Management, Pharmacy Management, Doctors Chamber, Accounts, General & Bed/Cabin Store Management and Payroll System
1.13 Hotel Management System	Reservation related transaction of a hotel with general store & accounting system.
1.14 Laboratory Management System	For maintaining the patient specimen, checkup & reports and doctors ledger.
1.15 Pharmacy Management System	For maintaining the transaction of Purchase, Sales, Store, Accounts & Payroll of a Medicine Sales Shop.
1.16 Press & Publication Management	For maintaining the transaction of Raw Materials, Purchase, Sales, Account, Store and Payroll of a Press & Publication with cost analysis
1.17 Real Estate Business Management System	An integrated total solution of Customer Relation Management with Purchase, Sales and stock for Project Basis Real Estate Business
1.18 Restaurant Management System	For maintaining the transaction in a restaurant with consumers and supplier along with Accounting System.
1.19 Salt Industry Management	For maintaining the transaction of Import, Export, Purchase, Sales, Account, Store and Payroll of a Salt Processing Company
1.20 Shoe Business Managing System (Bengali and English)	For transaction with customer & Supplier in a shoe store with integrated store and Account
1.21 Super Store Management System	For transaction in super store with integrated store and Account
1.22 Tailoring Shop Management	For transaction between client and tailors
1.23 Textile Management System	For maintaining the transaction of Account, Store and Payroll of a Textile Manufacturing & Exporting Company, or a Textile Processing Company with cost analysis
1.24 Travel Agent Management	An integrated system for Service & Billing, with integrated Account & Payroll of Man Power Business

1.25 University Management System	For Students all types of information from admission to final result with their financial transaction between university authorities and students
1.26 Purchase Sales & Inventory Management	For maintaining the transaction of Raw Materials, Purchase, Sales, Account, Store and Payroll of a Press & Publication with cost analysis

2. Sales System

2.1 Apartment Sales System	An integrated system of Customer Relation Management with sales and stock for Apartment sales Business
2.2 Book Shop Sales System	For maintaining the transaction of Purchase, Sales & Store of a Book Sales Shop
2.3 Cellular Shop Sales Manager	For maintaining the transaction of Purchase, Sales with integrated Account & Store of a Mobile Phone/Accessories Sales & Servicing Shop.
2.4 Computer Sales Manager	For maintaining the transaction of account & Store of a Computer Sales & Servicing Shop.
2.5 Crockery's Shop Manager	An integrated system of Purchase, Sales within targeted Accounts for Crockeries Shop
2.6 Land & Apartment Sales System	An integrated total solution of Customer Relation Management with Purchase, Sales and stock for Real Estate Business.
2.7 Pharmacy Sales System	For maintaining the transaction of Purchase, Sales & Store of a Medicine Sales Shop.
2.8 Restaurant Sales Manager	For maintaining the transaction in a restaurant with consumers orders
2.9 Shoe Shop Sales System	For transaction with customer & Supplier in a shoe store with integrated store

3. Billing System

3.1 CNF Billing System	An integrated system of Job & Bill, with integrated Accounts for Clearing and Forwarding Business
3.2 Courier Billing Manager	An integrated system of Billing, with integrated Accounts for Courier Service Business

4 Others

4.1 Digital Law Chamber	A digital system of Clients Case filing and for Law Chamber
4.2 Inventory Control System	Maintaining an-integrated transaction of store in a trading or manufacturing.
4.3 Order Processing System	For maintaining the order process of a Buying House with their nominated Buyers and Garments Manufacturers
4.4 Payroll Control System	All type of information of various type of Staff, General Employee & Contracted or Daily based Employee
4.5 Visa Processing System	For maintaining transaction between Travel Agent & Passenger

Work Ethics

- Significant Saving on Communication
- Faster product/service look-up and ordering, saving time and money
- Ensure first come first serve
- Reduce patient waiting time
- Improve the quality of patient care
- Ensure timely service
- Monitoring quality of services
- Serve a large number of clients
- Motivate clients to receive follow-up visits

- Readily available data and evidence-based decision support system
- Avoid duplications, repetitions, delays, missing records, and confusions
- Ensure transparency and discipline
- Good managerial tool to provide a cost-effective solution
- Facilitate Day-to-Day Management
- Easy and flexible in creating complicated samples
- Include design details, bills of materials, the production steps
- Prepare dispatch note
- Keep tracks of inventory of samples
- Reduce the burden of cost, time, and excess human resources
- Transparency and reduction of pilferage
- Easy financial management
- Proper personnel management
- Availability of service and management level database
- Smooth data preservation and retrieve
- Online data storage
- Error less solution
- Support Strategic Planning
- Significant Saving on Communication
- Support Strategic Planning

Solution Philosophy

While some of the solutions are conceptualized and designed from the ground up by ARN TECH, some result from our customer's requirements. However, all of our solutions are results of trying to keep our nose to the ground and deliver what is of most value for the customer. Our solution ideas come from the constant feedback that we receive from our existing applications that are spread across many geographical locations. The underpinning of the ARN TECH solutions is:

A. END TO END SOLUTIONS

A complete Business Operation and Support System that encompasses activities starting from Sales to Financial Management. It obviates the need to buy expensive stand-alone systems.

B. FLEXIBLE ARCHITECTURE

Centralized/Distributed architecture to suit our clients business needs.

C. DOMAIN EXPERTISE AND PROVEN TECHNICAL CAPABILITY

ARN TECH's key resources have a proven expertise working with different Financial Institutions, Telecom, RAHIMAFROOZs & other corporate enterprises in Bangladesh & abroad and follow best in-class practices.

D. COMPETITIVE PRICING

ARN TECH offers a cost advantage by providing an end-to-end solution and management expertise from a single interface.

E. QUICK DEPLOYMENT

The entire solution can be deployed within a very short time frame.

F. COMPREHENSIVE SUPPORT SERVICES

ARN TECH is committed to providing comprehensive product and system support, post deployment, and operating the services. Apart from technical points, ARN TECH is also responsible for managing the Services.

ARN TECH LIMITED is committed to market leadership underpinned by the adoption and implementation of the 5 'S' principles. These principles are simple and describe how we approach our work.

(STRAIGHTEN)	→	We practice sorting through all the tools, materials, etc., in our work area and keeping only essential items. Everything else is stored or discarded. Fewer hazards and less clutter have increased our Productivity.
(SORT)	→	Our focus is on an orderly workplace. We arrange our tools and equipment in an order that promotes work flow and eliminates extra motion.
(SHINE)	→	We keep our workplace clean and neat all the time because maintaining cleanliness is part of our daily work. This refers to or standardized work practices.
(STANDARDIZE)	→	We operate in a consistent and standardized fashion. Everyone in ARN TECH knows exactly what his or her responsibilities are.
(SUSTAIN)	→	We aim to maintain these high standards as our way of operating. We will not tolerate a gradual decline back to the old ways of operating

ARN TECH has its own philosophy which committed to market leadership underpinned by the adoption and implementation of the 5 'P'

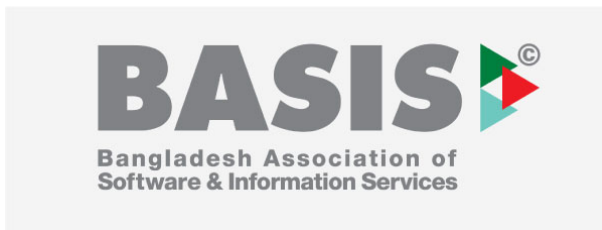

PRIME	We provide very good quality service for our customer.
PERSISTENCE	We make the impossible to be possible and achieve marvel success.
PRAGMATIC	We deal with business problems in a practical ways to solve smoothly.
PROFICIENT	We are skillful in our business.
PROGRESSIVE	We invent new technology and new business to enlarge our business.
