

COMPANY PROFILE

HQ3 Technologies Ltd. is a pioneering Bangladesh-based technology distribution company specializing in localized, generative AI solutions for emerging markets. Our goal is simple yet transformative: to deliver enterprise-grade automation without enterprise-grade complexity or cost, unlocking the true potential of businesses operating in high-growth economies.

With an emphasis on Conversational AI and intelligent automation, HQ3 Technologies helps businesses optimize operations, elevate customer experiences, and generate measurable ROI. Through our flagship partnership with Verbex™, a globally-leading Singapore-based AI technology platform, we seamlessly integrate with communication and data infrastructures, offering flexible, efficient, and scalable solutions.

Our Story

Founded in 2024, HQ3 Technologies began with a simple yet powerful insight: organizations in emerging markets deserve cutting-edge automation tailored to their unique needs—without the burden of excessive cost or technical barriers.

From our inception, we recognized the enormous growth potential in markets often underserved by traditional enterprise software providers. Today, HQ3 Technologies coordinates the seamless

integration of AI solutions into existing telephony, CRM, and data management systems, modernizing how businesses operate and compete globally.

Mission

Facilitate cost-efficient, localized, generative-AI solutions that drive measurable ROI for enterprises in rapidly growing economies.

Vision

Globally competitive emerging-market environments where every employee is empowered by intelligent automation.

Strategic Partnership: Verbex™

Verbex™ is a Singapore and Japan-based enterprise-grade Conversational AI platform. It empowers organizations to automate customer engagement, internal operations, and service delivery—efficiently and intelligently.

Key Capabilities:

- **24/7 Human-like Conversations:** Enable always-on customer and employee interaction across multiple channels.
- **Seamless System Integration:** Connect easily with telephony, CRM, ERP, and internal databases.
- **Localized Language Support:** Handle communication in local dialects to better serve emerging-market clients.
- **Actionable Insights:** Real-time data analysis provides businesses with immediate feedback loops and optimization suggestions.

Digital Worker Solutions

HQ3 Technologies delivers AI-powered digital workers tailored to multiple business domains:

- **Sales & Marketing Automation:** Lead generation, customer outreach, promotions, and order processing.

HQ3 TECHNOLOGIES LTD.

- **Survey Automation:** Execute product feedback, customer satisfaction, and operational efficiency surveys at scale.
- **Training Automation:** Conduct employee evaluations, onboarding, and sales rep assessments.
- **Customer Support Automation:** Answer FAQs, support customers, disseminate product or policy information.
- **Bill & Credit Collection Automation:** Streamline reminders, payment scheduling, and confirmation processes.

Partner Ecosystem

At HQ3 Technologies, partnership is at the core of our expansion strategy. We collaborate with:

- **Technology Partners:** Specialists in integration services, AI prompt engineering, and tailored AI analytics.
- **Sales Partners:** Experts who implement customized business logic, manage call routing, and monitor client success metrics.

Through our strategic partner network, we are scaling the reach and impact of Verbex™ across industries and regions.
