# Our Journey

RideCentric is a Dallas-based ground transportation company founded in 1999. Over the years, we have proudly served over 1,500 elite travelers, operating in all 50 US states and across five continents.

1999

The team expanded to 5 members and moved to a rooftop office, officially starting operations in Bangladesh as RC Tech amidst the challenges posed by Covid-19.

2021

We rebranded ourselves as TygrLabs, embracing a broader vision. With this new identity, we aim to expand our horizons by offering comprehensive 360 marketing solutions, as well as product design and development services. Our goal is to continue providing exceptional value to clients worldwide.

2023

2020

RideCentric's operations began in Bangladesh with a small basement office in Dhaka with just 3 dedicated team members and 20 people working from Dallas.

2022

We got our first proper office in Baridhara DOHS with a team of 11 people which quickly expanded to a whopping 40 people. This is the time when we established our in house tech team significantly bolstering our capabilities.

2024

In 2024, TygrLabs expanded its operations beyond Bangladesh, establishing a new office in Kathmandu, Nepal. This milestone marks TygrLabs' evolution into a truly global company, with a presence in multiple countries.

# Our Services

We specialize in travel technology. Our expertise streamlines non-core functions, empowering businesses to focus on their core activities in a cost-effective and efficient way.
