NABA IT SOLUTION

Software Development | Web Development | Training & Consultancy Services

COMPANY PROFILE

About Us

Naba IT Solution is a professional, modern, and fast-growing technology firm established in 2024, dedicated to providing innovative and comprehensive IT services.

From our humble beginnings with limited resources, we have grown into a capable and well-equipped company through determination, hard work, and a strong belief in developing human potential.

Our journey began with a simple idea: to build a platform where talented yet inexperienced individuals could receive practical IT training and develop real-world skills. Over the years, this vision has become the backbone of our organisation. We have successfully trained numerous fresh graduates and unskilled individuals, transforming them into confident professionals who now contribute effectively to our projects and to the wider IT industry.

We believe that people's wishes and ambitions are the true driving forces behind success. At Naba IT Solution, we nurture those wishes — turning them into skills, experience, and achievement. This belief has helped us become a trusted and capable IT service provider, now handling projects across multiple sectors with excellence, creativity, and efficiency.

Vision

To empower individuals through knowledge and technology, building an ecosystem of innovation that contributes to both local and global digital transformation.

Mission

• To provide cutting-edge software and web development solutions tailored to business needs.

• To create job opportunities by training and mentoring fresh talent in IT.

• To deliver reliable consultancy and digital transformation strategies for clients.

• To build long-term partnerships through professionalism, transparency, and quality service delivery.

Core Values

• **Dedication & Hard Work** – We believe in consistent effort and integrity.

• **Innovation** – Always exploring creative and efficient technological solutions.

• **Teamwork** – Every success is built on collaboration and mutual respect.

• **Client Satisfaction** – We grow when our clients succeed.

• **Skill Development** – Empowering people to grow within and beyond our company.

Areas of Business

Naba IT Solution offers a wide range of IT and digital services designed to meet the demands of modern businesses and individuals. Our core areas include:

• **Software Development** – Custom software solutions for business management and operations.

• **Web Design & Development** – Creative and responsive websites for companies, e-commerce, and personal brands.

• **ERP System Development** – Including Accounting, HRM, CRM, and administrative tools.

• **Mobile App Development** – Android and iOS applications for corporate and commercial use.

• **Digital Marketing & SEO Services** – Building brand visibility and online presence.

• **Skill Development & IT Training** – Guiding clients and students through IT strategies and career paths.

• **Graphics & UI/UX Design** – Visual content creation, brand identity, and design support.

• **Inventory & Construction Management Systems** – Specialised software for industrial and logistics operations.

• **Tour & Travel Applications** – Bespoke travel ticketing apps, including international projects.

• **Knowledge Process Outsourcing (KPO)** – Delivering expert research, analytics, and insights to boost efficiency and innovation.

Infrastructure and Facilities

Our company headquarters is located at Bijoynagar, equipped with an organised infrastructure that supports productivity, collaboration, and creativity.

Our facilities include:

• Multiple working rooms separated by department and project type.

• Modern desktops, laptops, and testing tools.

• A high-speed internet network with strong backup systems.

• Reception and administrative area.

• Meeting and training rooms for development sessions.

• Comfortable and creative workspace design to promote efficiency.

This infrastructure enables our teams to deliver high-quality projects within deadlines while maintaining international standards of performance.

Major Projects, Clients and Product Line Up

Since our establishment, we have successfully served multiple clients with innovative digital solutions. Notably:

• **Naba Housing Estate** – Implementation of a comprehensive ERP system covering Accounting, HRM, CRM, and business analytics.

• **Spacebiz Holdings** – Complete ERP integration, digital marketing, and content management solutions.

Both companies have expressed strong satisfaction with our performance and results, highlighting our technical competence and professional service.

We have also developed websites and mobile applications for several national and international clients, including a Tour Ticketing App for an Italian client, as well as various inventory and construction management applications tailored to industry requirements.

Our People

Our strength lies in our people — creative minds, passionate developers, and visionary leaders who share one goal: delivering excellence. We take pride in providing a workplace that fosters innovation, teamwork, and professional growth.

Conclusion

From a small team with big dreams to a capable IT company delivering high-quality software and digital services, Naba IT Solution continues to rise as a symbol of dedication, skill, and innovation. We believe that with every project we complete, we are not just developing technology — we are building trust, empowering people, and shaping a better digital future.
