

## **Company Profile: Hishabee Technologies Limited**

Hishabee Technologies Limited is a Bangladesh-based technology and fintech company dedicated to empowering small and medium enterprises (SMEs) through innovative digital solutions. The company focuses on enabling merchants to manage, grow, and digitize their businesses efficiently.

Hishabee provides a comprehensive suite of IT and fintech services, including POS solutions, digital payment integration, accounting and financial management software, credit facilitation, sales and inventory management, and data-driven business insights. These solutions help small vendors streamline operations, improve financial transparency, and gain access to formal financial services.

With a strong emphasis on technology-driven financial inclusion, Hishabee works closely with merchants, financial institutions, and ecosystem partners to promote digital transformation across local and international markets. The company combines software development, customer support, and outsourced service operations to deliver scalable and reliable solutions.

Hishabee Technologies Limited is committed to supporting Bangladesh's digital economy by creating employment opportunities, enhancing SME productivity, and contributing to sustainable business growth through technology and outsourcing services.
