COMPANY OVERVIEW

Company Name: Agrani Technologies and Services Limited

Year of Establishment: 2013

Head Office: Dhaka, Bangladesh

Legal Status: Private Limited Company

Nature of Business: Information Technology and Services

Operational Reach: Nationwide within Bangladesh

Years in Operation: 10+ Years

Agrani Technologies and Services Limited (ATSL) is a dynamic and rapidly growing IT company based in Bangladesh, dedicated to providing cutting-edge technology solutions that cater to both public and private sector needs. Since its inception in 2013, Agrani has built a strong foundation of trust, professionalism, and innovation, establishing itself as a leading force in the country's digital transformation landscape.

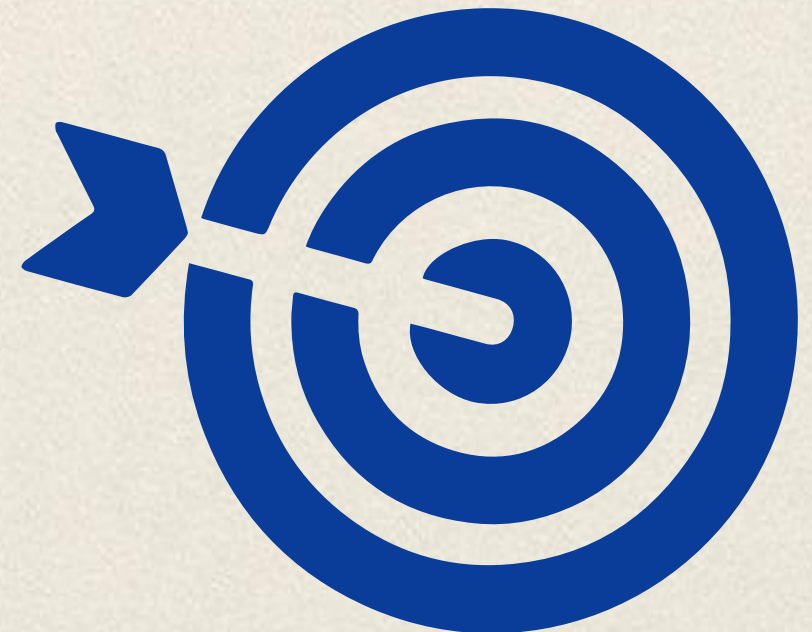

1. OUR VISION

To be a transformative force in shaping a smarter, seamlessly connected, and digitally empowered Bangladesh by delivering innovative, scalable, and sustainable technology solutions. We aim to bridge the digital divide, enhance public and private sector capabilities, and contribute to the nation's socio-economic development through cutting-edge advancements and unwavering commitment to excellence.

2. OUR MISSION

- To deliver high-quality, reliable, and cost-effective IT services tailored to local and national needs.
- To drive digital transformation across sectors through innovative and user-focused solutions.
- To build long-term partnerships through integrity, transparency, and customer satisfaction.
- To foster continuous learning and technical excellence within our team.
- To contribute to national development by supporting digital governance and technology access.

3. OUR VALUES

- Integrity: We act with honesty and uphold the highest standards of professionalism.
- Innovation: We embrace change and strive to introduce next-generation technologies.
- Customer Centricity: We listen, understand, and deliver solutions that meet real-world challenges.
- Excellence: We pursue quality in everything we do—from code to customer service.
- Teamwork: We collaborate internally and externally to achieve common goals.
