About Us

About Digital IT Center

Digital IT Center is a modern, skill development–focused IT training and service provider based in Faridpur, Bangladesh. We are committed to preparing students, job seekers, and young entrepreneurs with practical digital skills that help them succeed in freelancing marketplaces and professional job sectors.

In today's fast-changing technological world, academic knowledge alone is not enough. Real-life skills, hands-on practice, and proper guidelines are essential. At Digital IT Center, we provide project-based, practical training that turns learners into confident and capable IT professionals.

We believe in **learning by doing**. Our training methods are designed to ensure that every student gains real experience while learning.

Mission, Vision & Services

Our Mission	Our Vision
To create employment opportunities by developing technology-driven skills among the youth and building a digitally skilled workforce for Bangladesh.	To reduce unemployment by producing skilled freelancers, digital marketers, designers, and IT professionals through quality IT training.
