

Code Bridge

Where CGPA Ends, Production Skill Begins.

ABOUT US

WE ARE CODE BRIDGE

We are proud to be one of the leading training Institution and software service companies to emerge from the Asian continent.

We provide advanced and technical lessons for hands on work.

we provide opportunities to work on real world with mentors.

INDUSTRY 4.0 TECHNOLOGIES

TRUSTED TECH PARTNER

14 Services — Training Institute

The Physical Skill Academy

Digital Marketing

Website Design & Development

7 CORE TECHNICAL TRACKS

We offer comprehensive skill development across 7 specialized domains, training the next generation of tech professionals with industry-aligned competencies.

Web Design &
Development

Digital Marketing

Graphic Design

Computer Operation

Video Editing

Software Development

AI, Cyber Security &
Hacking

Our

TECHNOLOGY STACK — TRAINING INSTITUTE

Languages

- Python
- JavaScript / TypeScript
- Java
- C / C++
- C# .NET
- Dart
- Swift
- Kotlin

Database

- MongoDB
- PostgreSQL
- MySQL
- MS SQL Server

Design

- Figma
- Adobe Suite
- Blender 3D
- DaVinci Resolve

Frontend

- HTML5
- CSS3
- React.js
- Next.js
- Vue.js
- Angular

Mobile

- Flutter
- React Native
- Android (Kotlin)
- iOS (Swift)

AI / ML

- OpenAI
- TensorFlow
- PyTorch
- Scikit-Learn

Backend

- Node.js
- Express.js
- Django
- Spring Boot
- .NET Core
- PHP / Laravel

Cloud / DevOps

- Docker
- Kubernetes
- AWS
- GitHub Actions

Cyber Security

- Kali Linux
- Burp Suite
- Metasploit
- Wireshark

Our

TECHNOLOGY STACK — ENTERPRISE

Enterprise CMS

- Adobe Experience Manager (AEM)
- Sitecore

ERP / POS

- Custom Django / Spring Boot ERP
- Odoo
- nopCommerce

Cloud Platforms

- AWS (EC2, S3, Lambda, RDS)
- Google Cloud
- Azure

DevOps

- Docker
- Kubernetes
- Terraform
- Jenkins
- GitHub Actions
- ArgoCD

Analytics

- GA4
- GTM
- Looker Studio
- Power BI
- Tableau

Marketing

- Meta Business Suite
- Google Ads
- Ahrefs
- SEMrush

Security

- OWASP ZAP
- SonarQube
- Snyc
- AWS GuardDuty

Global Family

Worldwide Partnerships & Vision

Code Bridge is a Bangladesh-based startup with international expansion vision.

Target International Markets

USA

Australia

UK

Finland

International Expansion Strategy

Phase 1 (Year 1)

Establish as premier BD-based IT services + Edtech enterprise

Phase 2 (Year 2-3)

Begin remote software export, establish NRB partner network

Phase 3 (Year 3-5)

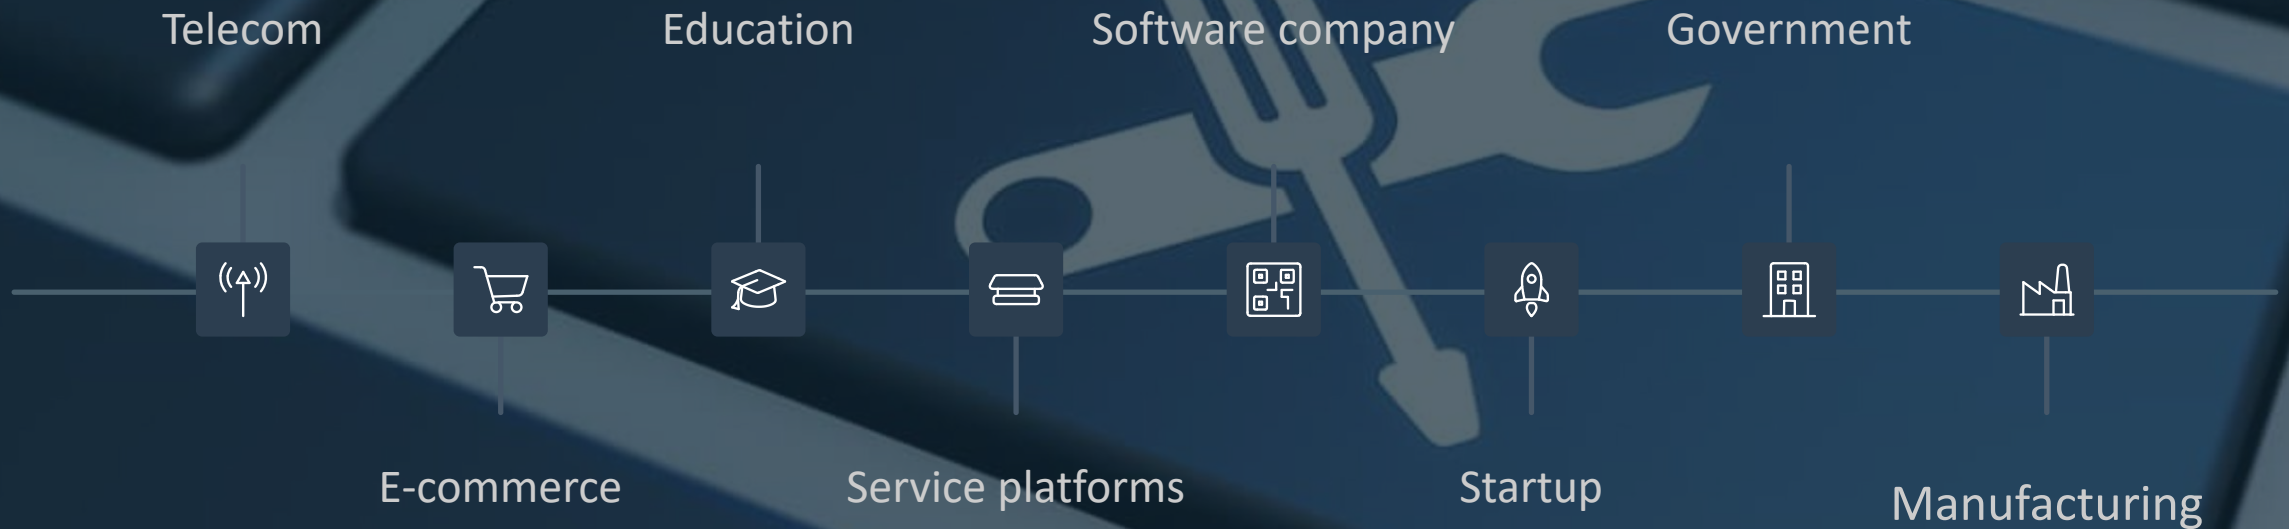

Open international liaison offices, position as South Asian hub

NRB Expat Funnel

Leverage Non-Resident Bangladeshi professionals for network building and market entry in target international regions, utilizing their local expertise and connections to accelerate growth.

INDUSTRIES WE SERVE

Over the years we will serve in many different industry verticals. As a result we can be the home for developers, engineers, designers, and analysts who specialize in various industries.

Infrastructure

The Physical Infrastructure

Our phygital infrastructure combines state-of-the-art physical learning spaces with an advanced digital ecosystem, designed to provide a seamless and effective learning and development experience.

The integrated approach ensures high-quality training delivery, accessibility, and continuous skill enhancement across all touchpoints.

District Micro-Hub Network

To ensure widespread accessibility and impact, we plan to expand our physical presence:

Flagship Hub (Mohakhali , Dhaka)

Our central hub offers a cutting-edge environment for immersive learning and development:

- High-speed fiber internet
- UPS + Generator backup
- AC-powered lab desks with gigabit LAN
- Resident senior developer mentors
- Proctored exam rooms
- Local edge cache server

SoftVerse

Munshiganj, Near Police Super office building.

DNJ-IT-Center

Baluadanga , Sadar Dinajpur

Ambssador IT

House:03,Road:2/2, Block :L, lift 1, Banani, Dhaka

Institute of Computer Technology

Old bus stand, ICT building,Third floor, Tangail

Solar World

167 Sirajuddn road, Konapara , Jatrabari , Dhaka

Proprietary Software Engine (Planned)

Our planned software engine will power the entire phygital ecosystem:

- Custom LMS Dashboard
- 24/7 AI Code Debugger
- Automated GitHub & AST evaluation
- Job Circular & Candidate Matching Engine
- App-based desk booking

Our Verticals

Two Integrated Business Engines

Vertical A: Enterprise IT & Digital Services

Code Bridge's Enterprise IT & Digital Services arm provides cutting-edge solutions for businesses, spanning web development to cybersecurity, ensuring digital excellence.

Website Development

Software Development

Apps Development

Digital Marketing

Graphic Design & UI/UX

Cloud & Cyber Security

Vertical B: The Physical Skill Academy

The Physical Skill Academy is a unique 3-tier skill transformation platform, designed to equip youth with practical, industry-aligned competencies through hands-on training.

7 Core Technical Tracks

21 Level-Mapped Programs

756 Practical Classes

1,134 Hands-On Training Hours

Our Philosophy

Where CGPA Ends, Skill Begins

The Problem in Bangladesh

Over 66% of graduates face career rejection due to academic label bias despite possessing raw potential.

The Code Bridge Solution

We evaluate youth by GitHub commits and live product builds, not CGPA.

Core Values

Skill Over Scores

Production Over Theory

Physical + Digital

Government Aligned

Industry Connected

Upcoming

8 Strategic Future Sectors

Code Bridge Studio & Management

Core management, micro audit, fraud detection.

Blockchain, Smart Contracts & Web3 Engineering

Solidity, Ethereum, DeFi protocols.

IoT, Embedded Systems & Industrial Automation

ESP32, STM32, PLC programming, SCADA.

Cloud Engineering, SRE & Platform Operations

Multi-cloud, Kubernetes, Chaos Engineering.

Data Engineering & Big Data Lakehouses

Apache Spark, Kafka, Snowflake, Databricks.

AR / VR, Spatial Computing & Game Development

Unreal Engine 5, Unity 3D.

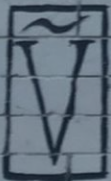

Robotics & Autonomous Systems Engineering

ROS 2, Computer Vision, SLAM.

Advanced Cryptography Research

Qiskit, Post-Quantum Cryptography.
