About of Atova Technology

Atova Technology institute is an educational institution that offers a range of training programs and courses focused on various aspects of technology, including network administration, cybersecurity, digital marketing, software development and more. Our institutes aim to prepare students for a successful career in the tech industry by providing them with a comprehensive education that includes both theoretical and practical knowledge. We employ experienced instructors who are experts in their respective fields, ensuring that students receive a high-quality education that is relevant and up-to-date with the latest industry trends and innovations.

We have Pearson & PSI vendor exam center authorization where individuals can take certification exams offered by specific technology vendors. These exams are designed to test the individual's knowledge and skills related to a specific technology or product offered by the vendor. In addition, we often provide individuals with the necessary resources to prepare for the exam, such as study guides, practice exams, and training courses.

Atova Technology also provide solution & managed service for Enterprise. We offer also consultancy on Networking, Security Surveillance and Access System, IT Solutions etc. Actively do Software and Web Development.

Message from CEO

Dear Students,

It gives me great pleasure to welcome you all to our Atova Technology. As the CEO of this institution, I want to assure you that we are committed to providing you with the highest quality education and training in the field of technology.

Our team of experienced instructors and staff are dedicated to helping you achieve your goals and succeed in your careers. We are constantly updating our curriculum to keep pace with the latest trends and technologies, ensuring that you are equipped with the knowledge and skills necessary to excel in a fast-paced and ever-evolving industry.

As you embark on this exciting journey with us, I encourage you to take advantage of all the resources and opportunities available to you. Ask questions, participate in discussions, and work collaboratively with your peers. Together, we can create a vibrant learning community that fosters creativity, innovation, and growth.

Thank you for choosing our institute for your ICT training, and I wish you all the best in your future endeavors.

Sincerely,

Ferdosh Epon

Message from CM

Dear Everyone,

As the Chief Mentor of Atova Technology, I wanted to take a moment to reach out and provide some guidance and encouragement for your studies. We understand that the world of technology is constantly evolving and can be overwhelming at times. However, it is important to remember that with dedication and hard work, you can achieve your goals and become proficient in your chosen field.

I urge you to take advantage of all the resources and support available to you, including study guides, practice exams, and one-on-one tutoring sessions. Don't be afraid to ask questions or seek help when you need it.

Remember that success in the world of technology requires more than just technical knowledge. It also requires strong problem-solving skills, creativity, and the ability to work well in a team environment. These are all skills that we will help you develop throughout your training.

Finally, I encourage you to stay up-to-date with the latest trends and developments in your field. Attend industry conferences, read industry publications, and stay engaged with the broader technology community. This will help you stay ahead of the curve and ensure that you are well-positioned to succeed in your career.

Thank you for choosing Atova Technology for your education. We are proud to be a part of your journey and look forward to helping you achieve your goals.

Sincerely,

Md. Mahbub Hasan Pavel
