2. Introduction

a. Company History

Nebulas IT is a Limited company, started its journey on 25th January, 2016. Initially, it was more focusing on skilled based IT training but currently it has been contributing to reduce the unemployment in Bangladesh. In addition to, Nebulas IT is working hard to create a new art of quality training. Our success rate is very high in number.

b. Company Description

Nebulas IT is located in Mirpur-10. The total space is 2000 Sq. meter. It has one conference room with 60 seats and has two computer lab fully equipped with computer and projector. The whole premise is under air-condition coverage. It also ensure the power supply back up with IPS. There is a lack of quality training and services in Bangladesh. Nebulas IT has been committed to providing the highest quality, skilled based training on various IT courses. We are also empowering women through IT training and also develop them as a freelancer. Our aim is to create employment in BPO market. Our motto is to earn during learning.

c. What the company does

Nebulas IT is mainly focusing on skilled based training in Graphics Design, SEO, CPA, Web design and Development, Digital Marketing, ASP .Net with C#, Java, C++, AutoCAD. After the completion of the course, we ensure that each student can successfully build their career in Freelancing marketplace.

3. Strategy

a. Vision statement

According to the current survey, there are approximately one crore and ten lac educated unemployment people in Bangladesh. Our vision 2025 is to reduce the numbers of unemployment people through skilled based training.

b. Mission statement

Our roadmap starts with our mission. There will be no unemployment people in Bangladesh. So we are continuously working for it. Our mission and vision is simple earning during learning.
